

BAIF Translation Test

1. Introduction

India is a beautiful country with a rich culture and diverse geography. This paragraph is included to test English to Marathi and English to Hindi translation in a text-based PDF.

2. Agriculture

Agriculture is an important part of the Indian economy. Farmers play an important role in supporting rural communities and food production.

3. Technology

Technology can improve agricultural productivity and help farmers make better decisions. Good communication helps teams work effectively.

4. Formatting Tests

This sentence is **bold** and this sentence is *italic*. This section helps us test whether the PDF handler can later preserve different text styles.

5. Employee / Field Team Table

Name	Location	Role	Experience
Ravi	Hyderabad	Farmer	5 years
Priya	Pune	Agriculture Officer	7 years
Amit	Nagpur	Field Coordinator	4 years
Meena	Delhi	Research Officer	6 years

6. Longer Paragraph

Sustainable agriculture requires cooperation between farmers, researchers, agriculture officers, technology teams, and local communities. Access to useful information and modern technology can help improve productivity, reduce unnecessary costs, and support better decision making. This longer paragraph is included to test text extraction, translation, and placement when the translated text has a different length from the original English.

7. Second Page Test

This is the second page of the sample PDF. Multiple pages are included so that the PDF translation handler can be tested across the entire document.

Farmers work together with agriculture officers to improve agricultural practices and support sustainable rural development.
